Barns of Indiana 2012 Calendar

Paintings from

The Barns of Indiana

project by Gwen Gutwein

This 2012 calendar is fifth in the series of calendars being published to spotlight Indiana's old and historic barns. Each month features a unique and beautifully painted barn, the cover too, twelve in all. The rich history for each barn is included giving you a year of enjoyment.

The calendar was printed with quality in mind. Careful attention has been given to image clarity color matching and paper quality.

The **The Barns of Indiana** project is an on-going painting and history-gathering project which focuses on our dwindling heritage of early Indiana barns. The artist, Gwen Gutwein, has a goal of completing two paintings of old and or historic barns from each of Indiana's 92 counties. Gwen paints on location, photographs the barns, and collects its unique historical information. See more on her web site www.gwengutwein.com

Gwen Gutwein / 925 Forest Avenue / Fort Wayne, IN 46805 / 260.484.1282 / gwen@gwengutwein.com

Cut here, retain top portion for your records, send this bottom section to the address below, thank you.
